

NREMT ONLINE REREGISTRATION

The NREMT has worked closely with the US Army EMS Programs Management Office to make it easier for you to recertify as an EMT-Basic. You will complete and submit the entire recertification application online. A major feature of this new system is that EMS continuing education and your competency verification will be validated in MODS and directly imported into the NREMT database. This will reduce your need to perform duplicate data entry and obtain hardcopy signatures on a paper application. While this recertification process will be considerably easier, you must still complete an online recertification application and submit it electronically prior to March 31 of your expiration year.

HOW DO I CREATE A NREMT ACCOUNT?

You must have a login for the National Registry website to access the on-line recertification process.

- * If you tested after January 1, 2007, you have a login. If you have forgotten your user name or password follow the Forgot password instructions provided on the screen.

- * If you tested prior to January 1, 2007, you will need to create an account by accessing the NREMT website (<http://www.nremt.org>).

- * Click on

- * Create New Account (on the left hand side of the screen) and follow the instructions.

- * Request the role of Nationally Certified EMS professional and then click SUBMIT.

- * When your account has been saved, login using the username and password you created.

- * Click on Manage NREMT Profile and complete all required information.

- * Save and log out of the NREMT

- * Log back into the NREMT website:

- * Click on My Certification, (located in the left hand column)

- * Choose Army for your state selection. Then click NEXT.

- * Select your military component (Active, Army Reserve or National Guard) from the Agency selection.

- * Then click SUBMIT

- * Click on Submit Recertification (located in left hand column) and follow the on-screen prompts.

NOTE: If your NREMT has already expired you will not be able to use the online recertification process to recertify.
